

Marta Štefánková - curriculum vitae

1. Základní osobní údaje

Jméno a příjmení: doc. RNDr. Marta Štefánková, Ph.D.
Původní příjmení: Babilonová
Datum a místo narození:
Trvalé bydliště:
Stav:

Vědecké a pedagogické hodnosti a pracovní zařazení:

1997 „Mgr“ v oboru učitelství matematiky a fyziky pro střední školy, Filozoficko-přírodovědecká fakulta Slezské univerzity v Opavě;
1999 „RNDr.“ v oboru Matematická analýza v Matematickém ústavu Slezské univerzity v Opavě;
1997-2000 prezenční doktorské studium, obor Matematická analýza, Matematický ústav v Opavě;
2000 „Ph.D.“ v oboru Matematická analýza v Matematickém ústavu Slezské univerzity v Opavě;
2000-2003 odborný asistent v Matematickém ústavu v Opavě;
2003 „doc.“ v oboru Matematika - Matematická analýza v Matematickém ústavu Slezské univerzity v Opavě;
od 2003 docent v Matematickém ústavu v Opavě,
do nástupu na mateřskou dovolenou (2004) zástupce ředitele pro vědu a zahraniční styky
od 2005 vedoucí Oddělení reálné analýzy a dynamických systémů,
členka Vědecké rady Matematického ústavu v Opavě,
předsedkyně dvou komisí pro státní závěrečné zkoušky v bakalářském i magisterském studiu,
garant bakalářského studijního programu Matematika,
od 2015 členka Vědecké rady Slezské univerzity v Opavě,

Další aktivity:

- členka panelu P201-Matematika Grantové agentury ČR (2015-2018)
- předsedkyně organizačního výboru soutěže SVOČ v Opavě (2001 a 2013)
- členka stálého vědeckého výboru konference ECIT (European Conference on Iteration Theory) (od 2014)
- členka organizačního výboru konference Conference on Ulam's Type Stability (CUTS), Rytro (Polsko), 2014
- členka organizačního výboru konference "Dynamical Systems, Difference and Functional Equations. In honor of Marek C. Zdun's 70th birthday", Krynica (Polsko), 2018

Hlavní zaměření vědecké činnosti: teorie diskretních dynamických systémů a teorie funkcí, funkcionální rovnice a komplexní analýza.

2. Publikace

(v závorce je uveden impakt faktor časopisu, u starších publikací se jedná o IF z roku 2010, u novějších je z roku publikování)

- [1] *M. Babilonová*, On a conjecture of Agronsky and Ceder concerning orbit-enclosing omega limit sets, *Real Analysis Exchange* 23 (1997/98) 773–777.
- [2] *M. Babilonová*, Distributional chaos for triangular maps, *Ann. Math. Silesianae* 13 (1999) 33–38.

3. Účast a vystoupení na mezinárodních konferencích

- [K1] 26th Winter School in Abstract Analysis, Křišťanovice, leden 1998. Přednáška “*On a conjecture of Agronsky and Ceder concerning orbit-enclosing omega-limit sets*”
- [K2] European Conference on Iteration Theory ECIT 98, Muszyna, Poland, 30. 8. - 5. 9. 1998.
Osobní pozvání, částečně na náklady organizátorů.
Přednáška „*Distributional chaos for triangular maps*”
- [K3] 27th Winter School in Abstract Analysis, Lhota nad Rohanovem, 23. – 30. 1. 1999.
Přednáška “*Distributional chaos for triangular maps*”
- [K4] 23rd Summer Symposium on Real Analysis, Łódź, Poland, 20. – 26. 6. 1999.
Částečně na náklady organizátorů.
Přednáška “*The bitransitive continuous maps of the interval are conjugate to maps extremely chaotic a.e.*”
- [K5] 4th Czech-Slovak Workshop on Dynamical Systems, September 23 – 27, 1999, Lipt. Trnovec, Slovakia.
Přednáška “*Chaos skoro všude*”
- [K6] 28th Frolík School in Abstract Analysis, Křišťanovice, 23. – 29. 1. 2000.
Osobní pozvání, na náklady organizátorů.
Přednáška “*Solution of a problem of S. Marcus concerning J-convex functions*”
- [K7] Millenium Symposium on Real Analysis, Denton, Texas, USA, 23. – 27. 5. 2000.
Osobní pozvání, organizátoři hradili pobyt i letenku.
Přednáška “*On stationary and determining sets for J-convex functions*”
- [K8] 4th Czech-Slovak Conference on Dynamical Systems, Praděd, 22. – 28. 6. 2000.
Přednáška “*Solution of a problem of S. Marcus concerning J-convex functions*”
- [K9] European Conference on Iteration Theory ECIT 2000, La Manga, Spain, 4. – 9. 9. 2000. Osobní pozvání, na náklady organizátorů.
Přednáška “*Extreme chaos and transitivity*”
- [K10] 5th Czech-Slovak Conference on Dynamical Systems, Praděd, červen 2001.
Přednáška “*Omega-chaos almost everywhere*”
- [K11] European Conference on Iteration Theory ECIT 2002, Évora, Portugal, 1. – 7. 9. 2002. Osobní pozvání, částečně na náklady organizátorů.
Přednáška “*Omega-chaos almost everywhere*”
- [K12] V Iberoamerican Conference on General Topology and its Applications CITA 2003, Lorca, Spain, 10. – 14. 6. 2003.
Osobní pozvání, na náklady organizátorů.
Přednáška “*On topological entropy of transitive maps*”
- [K13] 27th Summer Symposium in Real Analysis, Opava, 23. – 29. 6. 2003.
Přednáška “*Distributional chaos for triangular maps*”
- [K14] 7th Czech-Slovak Workshop on Dynamical Systems, Praděd, Hotel Figura, Czech Republic, September 6 - 13, 2003.
Přednáška “*On topological entropy of transitive maps*”
- [K15] Workshop on ergodic theory and dynamical systems, Szklarska Poreba, Poland, 19. - 22. 6. 2006.
Zvaná přednáška “*On topological entropy of transitive triangular maps*”
- [K16] 11th International Conference on Difference Equations and Applications,

- ICDEA, University of Kyoto, Japan, 22. - 29. 7. 2006.
 Zvaná přednáška "*On topological entropy of transitive triangular maps*"
 [K17] European Conference on Iteration Theory, ECIT 2006, Gargnano, Italy, 10. - 16. 9. 2006.
 Přednáška "*On topological entropy of transitive triangular maps*"
 [K18] Visegrad Conference Dynamical Systems, Hight Tatras, Slovakia, 17. – 23. 6. 2007.
 Přednáška "*Distributional (and other) chaos almost everywhere*"
 [K19] 45th International Symposium on Functional Equations, Bielsko-Biala, Poland, 24. 6. – 1. 7. 2007.
 Přednáška "*The holomorphic solutions of the generalized Dhombres functional equation*"
 [K20] 12th International Conference on Difference Equations and Applications, ICDEA 2007. Lisboa, Portugal, 23. – 27. 7. 2007.
 Přednáška "*Distributional (and other) chaos almost everywhere*"
 [K21] 31th Summer Symposium on Real Analysis, Oxford, England, 12. – 16. 8. 2007.
 Přednáška "*Distributional (and other) chaos almost everywhere*"
 [K22] Progress in Difference Equations, Bedlewo, Poland, 25. – 29. 5. 2009.
 Přednáška "*Functional equation of Dhombres type in the complex domain*"
 [K23] 47th International Symposium on Functional Equations, ISFE 47, Gargnano, Italy, 14. – 21. 6. 2009.
 Udělené ocenění "The ISFE medal for outstanding contributions to the meeting"
 Přednáška "*On the generalized Dhombres functional equation in complex domain*"
 [K24] International Conference on Difference Equations and Applications, ICDEA 2009, Estoril, Portugal, 18. – 25. 10. 2009.
 Zvaná přednáška "*On a triangular map of type 2 to infinity with positive topological entropy*"
 [K25] 8th AIMS International Conference on Dynamical Systems, Differential Equations and Applications, Dresden, Germany, 24. – 28. 4. 2010.
 Zvaná přednáška "*Distributional chaos and the size of scrambled sets*"
 [K26] 48th International Symposium on Functional Equations, Batz-sur-Mer, France, 13. – 20. 5. 2010.
 Přednáška "*Functional equation of Dhombres type in the real case*"
 [K27] 14th Czech-Slovak-Spanish Workshop on Discrete Dynamical Systems, Cartagena – La Manga, Spain, 19. – 25. 9. 2010.
 Přednáška "*Strong and weak distributional chaos*"
 [K28] Progress on Difference Equations, 22 – 27 May 2011, Dublin, Ireland.
 „*Solution of problems concerning distributional chaos for triangular maps*“
 [K29] 49th International Symposium on Functional Equations, ISFE 49, 19 – 25 May, 2011, Graz, Austria.
 „*On open problems concerning distributional chaos for triangular maps*“
 [K30] Visegrad Conference on Dynamical Systems, 27. 6. – 3. 7. 2011, Banská Bystrica, Slovensko.
 „*Some recent results concerning Sharkovsky classification of triangular maps*“
 [K31] 16th Czech-Slovak Workshop on Discrete Dynamical Systems (CSWDDS 2012), 11.–15. 6. 2012 Pustevny, Beskydy mountains, Czech Republic
 [K32] The 50th International Symposium on Functional Equations (ISFE 50), June 17 – 24, 2012, Hajdúszoboszló, Hungary.

“Strange chaotic triangular maps”

[K33] The 9th AIMS Conference on Dynamical Systems, Differential Equations and Applications, Orlando, Florida, USA, July 1 – 5, 2012.

“Strange chaotic triangular maps” (invited talk)

[K34] European Conference on Iteration Theory 2012 (ECIT 2012), Ponta Delgada, Azores, Portugal, September 9 – 15, 2012.

“Strange chaotic triangular maps”

[K35] 51th International Symposium on Functional Equations, Rzeszów (ISFE 51), Polsko, May 16 – 23, 2013.

„On the Sharkovsky classification program of triangular maps“

[K36] The 18th Czech-Slovak Workshop on Discrete Dynamical Systems, September 8 – 12, 2014, Malenovice, Beskydy mountains, Czech Republic.

[K37] Spring Topology and Dynamics Conference, University of Richmond, USA, March 10 – 15, 2014.

„On the Sharkovsky classification program of triangular maps“ (invited talk)

[K38] Conference on Ulam’s Type Stability (CUTS 2014), Rytro, Poland, June 2 – 6, 2014.

„On the Sharkovsky classification program of triangular maps“ (invited talk)

[K39] 52nd International Conference on Functional Equations (ISFE 52), Innsbruck, Austria, June 22 – 29, 2014.

„Inheriting of chaos in nonautonomous dynamical systems“ (invited talk)

[K40] 20th European Conference on Iteration Theory (ECIT 2014), Łagów, Poland, September 14 – 20, 2014.

„Inheriting chaos in nonautonomous dynamical systems“

[K41] 53th International Symposium on Functiona Equations (ISFE 53), June 14 – 21, Krynica-Zdrój, Polsko.

„On omega-limit sets of non-autonomous dynamical systems with a uniform limit of type 2^{∞} “

[K42] 54th International Symposium on Functional Equations (ISFE 54), June 12 – 19, 2016, Hajdúszoboszló, Hungary.

„On generic and dense chaos for maps induced on hyperspaces“ (invited talk)

[K43] 21th European Conference on Iteration Theory (ECIT 2016), September 4 – 10, 2016, Innsbruck, Austria.

„On generic and dense chaos for maps induced on hyperspaces“

[K44] Czech-Slovak Workshop on Discrete Dynamical Systems 2016 (September 12 – 16, 2016) Karlova Studánka, Czech Republic.

„On generic and dense chaos for maps induced on hyperspaces“

[K45] Dynamics, Functional Equations, Infinite Combinatorics & Probability Conference, June 11 – 16, 2017, London, UK.

„On generic and dense chaos for maps induced on hyperspaces“ (invited talk).

[K46] 7th Visegrad Conference on Dynamical Systems, Opava 2017, June 26 – 30, 2017, Opava, Czech Republic.

[K47] Dynamical Systems, Difference and Functional Equations, June 4 – 8, 2018, Krynica-Zdrój, Polsko.

„On generic properties of nonautonomous dynamical systems“ (invited talk).

4. Pobyty v zahraničí

- [P1] Silesian University, Katowice, Poland, 11. – 16. 12. 2000.
Přednáška "*The bitransitive continuous maps of the interval are conjugate to maps extremely chaotic a.e.*"
- [P2] Universidad de Murcia, Spain, 28. 4. – 10. 5. 2003.
Přednáška "*On topological entropy of transitive maps*"
- [P3] Karl-Franzens-Universität Graz, Austria, 24. - 28. 11. 2003.
Přednáška "*Chaos on compact metric spaces*"
- [P4] Karl-Franzens-Universität Graz, Austria, 17. - 21. 5. 2004.
- [P5] Karl-Franzens-Universität Graz, Austria, 30. 1. - 3. 2. 2006.

7. Ocenění

2000	Cena ministra školství pro vynikající studenty a absolventy studia ve studijním programu
2007	Cena rektora Slezské univerzity za významné vědecké výsledky
2008	Cena Učené společnosti ČR pro mladé vědecké pracovníky
2009	“The ISFE medal for outstanding contributions to the meeting”, 47th International Symposium on Functional Equations, ISFE 47, Gargnano, Italy, 14. – 21. 6. 2009
2009	Stipendium L'Oréal Česká republika Pro ženy ve vědě (společný projekt Akademie věd ČR a České komise pro UNESCO)
2018	Stříbrná medaile Slezské univerzity v Opavě

8. Školení doktorandů

2005	<i>Doc. RNDr. Marek Lampart, Ph.D.</i> (doc. 2014, nyní probíhá prof. říz.)
2012	<i>Mgr. Jana Dvořáková, Ph.D.</i>
2014	<i>Mgr. Leszek Szala, Ph.D.</i>
2018	<i>Mgr. Jakub Šotola, Ph.D.</i>
od 2016	<i>Mgr. Vojtěch Pravec</i>

9. Přednášky pro studenty

Seminář z diskretních dynamických systémů (pro doktorandy)
Matematická analýza I a II
Vybrané partie z matematické analýzy I a II
Algebra I a II
Komplexní analýza
Topologie
Logika a teorie množin
Algebraické struktury
Analýza v komplexním oboru
Reálná analýza I a II
