(20 points)

Cats

Cats of all kinds are present in the legends, religion, mythology, and history of many different cultures. Cave paintings created (1) **BY** early humans display different types of wild cats which are now extinct, or no longer around. Many of these great beasts saw humans as food, but were hunted by humans (2) **IN** return. Cats similar to the ones kept as pets today started showing up in artwork thousands of years (3) **AGO**. For example, the ancient Egyptians believed cats (4) **WERE** the sacred, or special, animal of a goddess named Bast. They believed that Bast often appeared as a cat, so many ancient Egyptians respected and honored cats and kittens. However, other cultures feared cats or thought that they brought illnesses and bad luck. Today, with millions kept (5) **AS** pets in homes around the world, cats (6) **HAVE** become important members of (7) **THEIR / OUR / MANY** families. No one knows for sure when or how cats became very popular household pets. It is possible that people noticed (8) **THAT / HOW** cats hunted mice and rats, (9) **SO** they set food and milk out to keep the cats near their homes. This helped to prevent too many of these rodents (10) **FROM** coming into homes and eating people's food or spreading sickness.

G. Read the following article and circle the correct answer A, B, C or D.

(10 points)

**Interview with Andrew Doyle:
News Editor at *Flight International***

Believe it or not, I used to read *Flight International* every week from the age of eight onwards – my father, an aviator engineer, encouraged my early passion for planes but I never thought that one day I would be working on it as a journalist.

Flight International is read by anyone with an interest in aviation. From pilots to manufacturers, technicians to air vice marshals, all are readers looking for the latest news in this sector. As news editor, I'm responsible for deciding what appears on the 20 news pages we produce each week. Aviation is one of the few truly global industries and we have a team of reporters around the world. When I left school, my original plan was to become an engineer. I studied aeronautical engineering at university but found the course rather unsatisfactory. At the time there was a huge recession on with few jobs going, and I was forced to look round for other options. I actually wrote to *Flight* and asked for a job. The then deputy editor advised me to do a course in journalism which had just been set up, which is what I did.

I found the course useful not so much because it gave me a pretty good basic grounding in journalism, but mainly because it featured several work placements, which I was able to do at *Flight*. I wrote a few pieces and got my face known at the magazine.

When the course finished there were no jobs available on *Flight* so I went off and worked for an aviation newsletter. After a year or so the technical reporter at *Flight* moved to another job and I was in.

The great thing for me about working here has been the chance to ask people questions about something I'm genuinely interested in, and to combine it with my other passion, travel. After a couple of years, including a spell with our sister online news service, I was offered a job in Munich in Germany.

It was fantastic timing as the aviation industry in eastern Europe was just opening up and I got to report on it and see the region. From there I went to Singapore, which again was an extraordinary experience. I got to fly all over the Far East, visiting factories, meeting fascinating people and doing interviews, and to be honest I would have been happy to stay there a bit longer.

However, jobs like this don't come up very often – the last news editor stayed ten years – and so when I was offered it, I couldn't really say no.

Although I'm much more office-based now, I still go to the big air shows. In some ways I was getting a bit tired of living out of a suitcase, although I still get a thrill when I take my seat on a new plane for the first time.

1. Why did Andrew Doyle read *Flight International* when he was a child?

- A He wanted to become an airline pilot.
- B He was very interested in planes.**
- C He dreamt of becoming a journalist on it.
- D His father worked in the travel business.

2. Why does Doyle say that he did not become an aeronautical engineer?

- A He did not get a good enough degree.
- B He had decided to try to move into journalism.
- C Engineering would give him little chance to travel.
- D There was a shortage of jobs in the field.**

3. What did Doyle like about the journalism course he took?

- A It was a new course.
- B It gave him a good basic knowledge of the job.
- C It gave him the chance to make contacts at *Flight*.**
- D It gave him work experience in several different places.

4. What was Doyle's first job at *Flight*?

- A aviation newsletter writer
- B technical reporter**
- C staff interviewer
- D online news reporter

5. What does It refer to?

- A moving to Germany**
- B working for the online agency
- C getting a job on *Flight*
- D the opening up for aviation in eastern Europe

H. Write an essay of 80–100 words answering the following question.

If you could have dinner with a famous person, who would it be? What would you talk about?

.....
.....
