Associate Professor/Full Professor position

Entrusted by the Rector of the Silesian University in Opava, the director of the Mathematics Institute in Opava invites applications for one full-time Associate Professor/Full Professor position in the Department of Geometry and Mathematical Physics.

Qualifications:

The applicant should be an internationally recognized researcher and/or academic personnel, who holds Ph.D. in Mathematics or a closely allied field and has achieved the rank of "Docent" or "Professor" according to the Czech legislation, or a similar level on an institution abroad.

The applicant should have at least 2 years' experience from a research or academic institution different from the Silesian University in Opava, preferably abroad.

Track record of productive research (publications in reputable international journals, preferably including some without co-authors).

Candidates must demonstrate strong promise of integration into research activities of the department.

Fluency in English, both written and spoken, is required.

Job description:

The main duty of the successful candidate will be research. Teaching approximately 4-8 hours/week is also expected.

The successful candidate will be offered competitive salary with standard benefits.

Location of the position is in the city of Opava, Czech Republic.

Start date:

The position is to be taken up on a mutually agreed date between April 1, 2022, and January 1, 2023.

The initial contract will be for 3 years. After that, in case of mutual satisfaction, we will offer permanent contract. If the candidate has not yet achieved the rank of "Docent" according to the Czech legislation, it is expected that he/she will do that during the initial 3 year contract.

Inquiries about the position can be addressed to: Jirina Bohmova, Mathematics Institute in Opava, Na Rybnicku 1, 746 01 Opava, Czech Republic, email: Jirina.Bohmova@math.slu.cz .

Application process:

A complete application must include curriculum vitae, list of publications, list of active participations at conferences including the titles of contributions, list of citations, and a research statement. These documents must be submitted to the email below no later than on February 15, 2022.
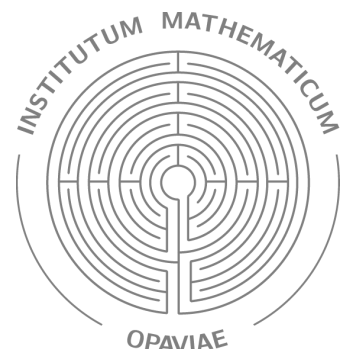

The successful candidate will be notified no later than on March 15, 2022.

We thank all applicants in advance for their interest.

Selection criteria:

Quality and international recognition of the candidate's scholarly work.

Promise of integration into research activities of the institute.

Experience in research or teaching positions after completing the doctoral degree.
Applications should be sent to: professor21GGA@math.slu.cz .
