

CAMPUS

Our campus offers students accommodation, board, sports facilities and a range of other services. Part of the campus is the University Library with a wide range of professional literature, study materials and professional journals. The entire building has wheelchair access. The campus is located in a peaceful and quiet area of the town of Karviná, with the possibility of in-line skating or cycling trips. Near the campus there is the direct connection to the town centre by public transport buses.

ACCOMMODATION AND BOARD

Accommodation at the university campus is provided to students, professors and the general public throughout the year.

For those interested there are double and triple rooms, suites and rooms with wheelchair access available. The rooms are equipped with sanitary facilities, a shower and a kitchenette. There is also a free Wi-Fi Internet connection.

> Snacks can be purchased at the front office of the campus or through vending machines locampus.

LIBRARY

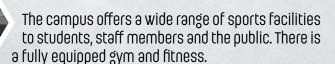

The modern University Library offers over 50 thousand sources. In addition to professional literature, study materials and professional journals there is also the option of self-service copying, printing and scanning.

There are also Bachelor, Master and Doctoral theses available, access to online databases, learning multimedia.

The library has study rooms with computers, facilities for users' information education along

with programs for multimedia teaching, search terminals with online catalogues.

automated self-service lending COUNter is installed in the premises along with a 24-hour self-service terminal box for the return of the books.

Every year, a series of interesting events is organised, in which not only students, but also employees and the public may give off or actively regenerate their accumulated energy.

Modern and non-traditional physical activities such as evenings with fitball and chi-toning, capoeira, TRX exercises, archery, etc. are organized.

After an all-day of sitting in classrooms it is possible to stretch the body by doing fitness ropes exercises, practice self-defence or dance street dance. Regular events held annually include the run race with the Dean of the Faculty or on in-line skates around the town of Karviná.
