

Program: Methods for interactive, cooperative teaching and learning in an international hybrid classroom

Monday 9th of September 16.30-17.30h (CEST)

Impulse lecture: Hybrid teaching
Speaker: Prof. Lydia Scholz

Tuesday 10th of September 10.00-11.30h (CEST)

Getting started: Videoconferencing and technical equipment

Learn which equipment is best suited for virtual and hybrid teaching. Using Zoom as video conferencing tool there are many interactive features for teaching. In this basic training you will learn the basic functions in ZOOM: microphone and camera settings, reactions, chat, screen sharing, whiteboard, polls, breakout sessions and much more.

Speakers: Gerald Schwabe / Jessica Heidmann

Wednesday 11th of September 10-11.30h (CEST)

Enhanced Tools: Working with Online Whiteboard Collaboard

Collaboard allows you to work together on an online whiteboard. In this training event you will learn the basic functions of a digital tool called Collaboard: working with note fields, embedding media, sharing content, navigating the board, sharing with others and much more.

Speakers: Jessica Heidmann / Gerald Schwabe

Thursday 12th of September 10-11.30h (CEST)

Let's try real-time feedback tool Mentimeter

Using Audio Response Systems enables direct, real-time interaction with the participants in your courses. In this training event you will learn the basic functions of digital tool Mentimeter. Find out how Mentimeter enriches your teaching methods through interactive involvement of your students and how you can maximize learning success through live feedback.

Speaker: N.N.

Tuesday 13th of September 15.30-17h (CEST)

Experience reports: International teaching and learning cooperation
Speakers: Prof. Uta Bohnebeck / Prof. Martin Hering-Bertram / Prof. Svenja Tams
